CHANGING CONVERSATIONS ABOUT RACE WITH IMMERSIVE LEARNING

Results from over **2,000 students and staff** sessions in Bodyswaps' anti-racism training modules **confirm the effectiveness of immersive learning** as a pedagogical tool for transforming behaviours

Learners' Feedback

Confidence

85%

reported an increase in confidence around anti-racism skills.

Effectiveness

83%

find learning with Bodyswaps more effective than traditional methods.

Recommendation

89%

would recommend the experience to their peers

Students said...

"I absolutely **love this way of learning**. The way the avatars spoke and explained different and new definitions to me really helped me to understand and become more aware of racism"

Michele

"I found the experience to be **fun** and **different** as well as educational all at once

It was a good way to demonstrate **real world issues** and experiences."

Sowon

"It was **very helpful** to learn how we can express our emotions without harming others' feelings. I think it's time to take action for reducing stereotypes and negative perspectives from our brain!"

Nadia

" I FEEL CONFIDENT..."

% of students feeling confident before VR experience

% of students feeling confident after VR experience

Challenging others to reflect on their microaggressions	23%	73%
Using strategies to respond to microaggressions	26%	74%
Detecting and **overriding my own bias**	43%	82%
Recognizing the myth of merit	36%	83%

Testimonials

"When using this with my class, my students found it really thought provoking. It was a great tool to have them open up and interrogate the race based assumptions they participate in and how to **become an ally in a non judgmental, safe environment**"

Charlene Dustan
Co-chair of George Brown College's Anti-Racism Equity Advisory Board

"Let's Talk About Race in the perfect resource to support course content or to use as an assignment after sessions on Anti-Racism and Anti-Oppression. It provides my students **opportunities to reflect** on their own biases, and they shared that they felt more confident to talk about race and challenge biased and microaggression."

Gail Howard
Professor at George Brown College

" Can virtual reality fight racism?..."
